

# Belize: Three Great Lodges Species List | April 7 – 17, 2026 with Naturalist Journeys

Compiled by Kip Miller

**Our local guides included Isaias and Jeffrey at Black Rock Lodge, Chris and Vidal at Lamani Outpost Lodge and Steve and Vince at Tanager Rainforest Lodge.**

**Our group included Meg, Ron, Lysa, Mort, Pat, Eileen, Ed, Kevin, Tony, Doni and Ken.**

As noted in the title of this tour, we spent quality time at three “great” lodges during our time together in Belize – Black Rock Lodge, Lamani Outpost Lodge and Tanager Rainforest Lodge. All were host to diversity of resident tropical bird species and wintering migrants and each provided a slightly different mix of species. We were never wanting for birds to watch and enjoy!

The [eBird](#) link below details the **241 species of birds** seen by one or more participants during the tour. (Be sure to click “Show All Details” on the right side of the list to expand the report and reveal where and when each species was seen and how many.)

## [April 7-17, 2026 Belize: Three Great Lodges | eBird Trip Report](#)

Following is a list of the other wildlife species we were fortunate to observe during the trip.
