

Southern Costa Rica: Birding and Nature Tour January 19 - 29, 2017

Birding and Wildlife Tour Species List

Guides: Max Vindas and Greg Smith, and ten participants; Clifton, Margaret, Don, Mardi, Felicia, Niles, Helen, Bob, Richard, and Julia

Least Grebe *Tachybaptus dominicus* – A half dozen were at the San Isidro El General wastewater plant Brown Pelican *Pelecanus occidentalis* – Large groups of birds foraging over the coast and roosting in mangroves Anhinga *Anhinga anhinga* – A half dozen were seen at the flooded rice fields

Bare-throated Tiger-Heron *Tigrisome mexicanum* – A single individual in the flooded rice fields was close to the road Neotropic Cormorant *Phalacrocorax brasilianus* – We had a number of these birds roosting above the Rio Tarcoles

Magnificent Frigatebird *Fregata magnificens* – Floating on air in lazy groups over the Pacific Coast Wood Stork *Mycteria Americana* – A solo individual flying over the flooded rice fields at Cota 47

Great Blue Heron Ardea Herodias – Seen sporadically throughout the trip

Great Egret Ardea alba - Common along the flooded rice fields south of the Rio Cota

Snowy Egret Egretta thula - Common along the flooded rice fields south of the Rio Cota

Little Blue Heron Egretta caerulea - At the finca ponds behind Lankester Botanical Gardens

Tricolored Heron Egretta tricolor – A few in the flooded rice fields south of the Rio Cota

Cattle Egret Bubulcus ibis – At the finca ponds behind Lankester Botanical Gardens

Green Heron Butorides virescens - A couple were on the Rio Cota

Black-crowned Night-Heron Nycticorax nycticorax - A single bird roosting over the Rio Tarcoles

Yellow-crowned Night-Heron Nyctanassa violacea - Numerous solo birds seen along the Rio Tarcoles

Boat-billed Heron Cochleari cochlearius – Three nests and five other individuals at our lunch break in Perez Zelodon

White Ibis Eudocimus albus - A number were along the flooded rice fields south of the Rio Cota

Glossy Ibis Plegadis falcinellus – Lots of these birds in the flooded Cota rice fields

Roseate Spoonbill Platalea ajaja - Three flew right over our heads at the Cota rice fields

Black-bellied Whistling-Duck Dendrocygna autumnalis - Very common in the flooded rice fields south of Rio Cota

Muscovy Duck Caiina moschata - One wild one seen in a flooded field at Esquinas

Mallard Anas platyrhynchos - At the finca ponds behind Lankester Botanical Gardens

Blue-winged Teal Anas discors – At the finca ponds behind Lankester Botanical Gardens

Northern Shoveler Anas Clypeata - There were a few at the fincas ponds on the first day

Northern Pintail Anas acuta – We had four at the finca ponds on the first day

Black Vulture Coragyps atratus – Everywhere and every day...

Turkey Vulture Cathartes aura – Again, everywhere and every day...

King Vulture Sarcoramphus papa - Seen on our last day, on our last stop, two of them

Osprey Pandion haliatus - One seen along the Rio Cota

Swallow-tailed Kite Elanoides forficatus – We would always see about ten at the Wilson Botanical Gardens

White-tailed Kite Elanus leucurus - At the finca ponds behind Lankester Botanical Gardens

Double-toothed Kite Harpagus bidentalus - A pair circled us twice at La Amistad NP

Tiny Hawk Accipiter superciliosous - Seen on a walk around Esquinas Rainforest Lodge

Common Black Hawk Buteogallus anthracinus – We saw at least four along the Rio Tarcoles

Gray Hawk Buteo plagiadus - Seen soaring over the road outside of Los Cutingoes

Gray-lined Hawk *Buteo nitidus* – Seen soaring over Robby's Restaurant in Queops

Roadside Hawk Buteo magnirostris - At the finca ponds behind Lankester Botanical Gardens

Broad-winged Hawk Buteo platypterus - Up by Mirador de Quetzales in a clearing

```
Short-tailed Hawk Buteo branchyurus – One was soaring at eye-level near La Amistad NP
```

Swainson's Hawk Buteo swainsoni - Three bids were following a tractor plowing the rice fields at Cota

Zone-tailed Hawk Buteo albonotatus - Seen flying over us along the Rio Naranja

Red-tailed Hawk Buteo jamaicensis - Soaring over the communication towers on Cerro Buena Vista

Black Hawk-Eagle Spizaetus ornatus – A big one soaring over us on the entrance road to Esquinas

(H) Collared Forest-Falcon *Micrastur semitorquatus* – Heard often, but not seen on the Rio Tarcoles

Crested Caracara Caracara cheriway – Seen sporadically in the southern part of the country

Yellow-headed Caracara Milvago chimachima – The more common of the two caracaras

Laughing Falcon Herpetotheres cachinans – Great views of a bird perched right next to the road near La Amistad NP

Gray-headed Chachalaca Ortalis cinereiceps - Seen just outside of Wilson Botanical Gardens

Crested Guan Penelope purpurascens - Two birds were roosting in the giant tree in front of the Wilson's home

Black Guan Chamaepetes unicolor – Common at both Savegre and Wilson

Great Currosow Crax rubra - Seen along the road at Esquinas Rainforest Lodge

Gray-cowled Wood-Rail Aramides cajanea – Seen in the gardens of Las Esquinas Lodge

(H) Marbled Wood-Quail *Odontophorus gujanensis* – Heard and almost seen at Esquinas

Spotted Wood-Quail *Odontophorus guttetus* – Seen along the Savegre Road when looking for the quetzales

Purple Gallinule Porphyrio martinica – Pretty common in the flooded rice fields south of the Rio Cota

Common Gallinule Gallinula spinguspus - At the finca ponds behind Lankester Botanical Gardens

American Coot Fulica americana – A small group in the flooded rice fields were just about the only ones we saw

Double-striped Thick-Knee Burhinus bistriatus – A pair were seen well sitting on the banks of the Rio Tarcoles

Black-necked Stilt Himantopus mexicanus - A female was solo at the San Isidro El General ponds

Black-bellied Plover Pluvialis squatarola – A solo bird foraging after sunset on the Rio Tarcoles

Killdeer Charadrius vociferous - Seen at the finca ponds on the first day

Southern Lapwing Vanellus chilensis - A recent arrival in Costa Rica, but you couldn't tell by the numbers

Northern Jacana Jacana spinosa - Hundreds in the flooded rice fields south of the Rio Cota

Willet Catoptrophorus semipalmatus - A few in the flooded rice fields south of the Rio Cota

Stilt Sandpiper Calidrus himantopus - A solitary bird feeding with the Yellowlegs in the rice fields

Spotted Sandpiper Actitis macularia - Very common at the San Isidro El General wastewater treatment ponds

Solitary Sandpiper *Tringa solitaria* – There were a few at the finca ponds on the first day

Greater Yellowlegs Tringa melanoleuca – Lots of these birds in the flooded rice fields

Lesser Yellowlegs Tringa flavipes - Most were seen on the flooded rice fields

Least Sandpiper Calidrus minimus – One bird work the entrance to theRio Tarcoles

Whimbrel Numenius americanus – We saw about eight of these Alaskan breeders along the Rio Tarcoles

Stilt Sandpiper Caldris himantopus – A soliary bird feeding in the Cota rice fields alongside Greater Yellowlegs

Western Sandpiper Calidrus mauri - A solo at the finca ponds behind Lankester Botanical Gardens

Long-billed Dowitcher Limnodromus scolopaseus - Three individuals in the flooded rice fields

Royal Tern Sterna maxima – A single bird sitting atop a stump in the middle of the Rio Tarcoles

Rock Pigeon Columba livia - Pretty common around San Jose

Red-billed Pigeon Patagioenus flavorostris - Seen on the grounds of the Hotel Bougainvillea

Pale-vented Pigeon Columba cayennensis – Seen along the Rio Naranjo

Scaled Pigeon Columba speciosa - Great looks at one perched in a leafless tree outside our rooms at Wilson Botanical

Band-tailed Pigeon Columba fasciata – Seen both days at the Rio Savegre Lodge

Ruddy Pigeon Patagioenas subvinacea – Small flocks and individuals along the Rio Savegre

Short-billed Pigeon Columba nigrirostris - A solo individual at Rio Savegre Lodge

Inca Dove Columbina inca - Two pairs were seen well at the Hotel Bougainvillea. Sporadic for the remainder

White-winged Dove Zenaida asiatica – On and off, mostly in the highlands

Common Ground-Dove Columbina passerine – Two birds perched above the Rio Tarcoles were it for the trip

Ruddy Ground-Dove Columbina talpacoti – Three individuals at the finca ponds behind Lankester Botanical Gardens

White-tipped Dove Leptotila verreauxi – Usually, and some with good looks solo individuals

Gray-Chested Dove Leptotila cassinii – Seen on the first evening at Esquinas

Orange-throated Parakeet Euspitulla canicularis - Only one seen was in a tree on the Rio Tarcoles

Scarlet Macaw *Ara macao* – Seen perched over the dining area at Villa Lapas

Crimson-fronted Parakeet Aratinga finschi - Common around the Hotel Bougainvillea

Sulphur-winged Parakeet Pyrrhura hoffmanni – Very common along the Rio Savegre valley

Orange-chinned Parakeet Brotogeris jugularis – Seen at Alexander Skutch's residence in Los Cusingos

Brown-throated Parakeet *Eupsittula pertinax* – Seen on the grounds of the Wilson Botanical Gardens

Crimson-fronted Parakeet *Psittacara finschi* – Definitely the most common of the parrot family

Brown-hooded Parrot Pyrilia haemetotis - Seen on the Wilson Botanical Gardens grounds

Blue-headed Parrot Pionus menstruus – Great looks at a perched individual in La Amistad NP

White-crowned Parrot *Pionus senilis* – A pair were very cooperative as they perched overhead and very low at Skutch's

Red-lored Parrot Amazona autumnalis - Seen in its nesting cavity from Robby's Restaurant in Quepos

Mealy Parrot *Amazona farinose* – Views in the gardens at Wilson

Yellow-naped Amazon Amazona auropalliata – A group of six along the Rio Tarcoles gave us great looks

Black-hooded Antshrike - Thamnophils bridgesi - Seen on our walk to the Wilson canopy tower

Squirrel Cuckoo *Piaya cayana* – Seen at Mirador de Quetzales

Smooth-billed Ani Crotophaga ani - Seen along the Rio Cota

Groove-billed Ani Crotophaga sulcirostris - A flock along side the road in Perez Zeledon were easy to see

Spectacled Owl *Pulsatrix perspicillata* – Seen on our final morning walk at Villa Lapas

Mottled Owl Ciccaba virgata - Seen on an owl prowl at the Wilson Botanical Gardens

Common Paurague Nyctidromus albicollis – We saw three on the road during our night drive at Esquinas Lodge

White-collared Swift Streptoprocne zonaris - Seen near the falls down the road from the Rio Savegre Lodge

Vaux's Swift Chaetura vauxi - One was seen near Mirador de Quetzales, large group at La Amistad

Costa Rican Swift Chaetura fumosa – We saw a number of these endemics near Wilson Botanical Gardens

Band-tailed Barbthroat *Threnetes ruckeri* – Seen on our first morning at Esquinas Rainforest Lodge

Green Hermit Phaethornis guy – Seen on our first morning at Wilson Botanical Gardens

Long-billed (Long-tailed) Hermit Phaethornis longirostris – Seen feeding on the Heliconias at Esquinas

Stripe-throated (Little) Hermit *Phaethornis striigularis* – Seen feeding along the Rio Naranjo

White-necked Puffbird Notharcuis hyperrhynchus – Good, long looks at a bird sitting on a wire just north of Esquinas

White-whiskered Puffbird Malocotila panamensis – Peched over the trail for three minutes in Carara National Park

Scaly-breasted Hummingbird Phaeochroa cuvierii - Perched for long looks below the Skutch residence

White-necked Jacobin Florisuga mellivora – Seen along the Rio Cota

Lesser Violetear Colibri thalassinus - Numerous and feisty around the Mirador de Quetzales feeders

White-crested Coquette Lophomis adorabilis – Seen outside the rooms at Esquinas Rainforest Lodge

Fiery-throated Hummingbird *Panterpe insignis* – The most numerous hummingbird around Mirador de Quetzales

Long-billed Starthroat Heliomaster longirostris – Seen on our first morning at Esquinas Rainforest Lodge

Rufous-tailed Hummingbird Amazilia tzacatl – Very common around Hotel Bougainvillea

Charming Hummingbird Amazilia decora – Seen at Los Cusingos in the gardens

Violet Headed Hummingbird *Klais* guimeti – Seen along the Rio Savegre Valley

Steely-vented Hummingbird Amazilia saucerrottei – Two were observed at the Hotel Bougainvillea

Snowy-bellied Hummingbird Amazilia edward – Seen in La Amistad NP

Green-crowned Brilliant Heliodoxa jacula – One was seen briefly at the feeders in front of Mirador de Quetzales

White-throated Mountain-gem Lampornis castaneoventris - Seen feeding on the cannas at Savegre Lodge

Purple-throated Mountain-Gem *Lampornis calolaema* – One was seen along the trail at Mirador de Quetzales

White-crested Coquette Lophornis adorabilis - Only one seen was at the Esquinas Rainforest Lodge

Magnificent Hummingbird Eugene fulgens – Seen at most stops in the central valley/highlands, but not common

Purple-crowned Fairy Heliothryx barroti – Seen feeding on the Erythina flowers in the garden at Los Cusingos

Green-breasted Mango Anthracothorax veraquensis – Seen along the road as we scoped the finca ponds

Magenta-throated Woodstar Calliphlox bryanti – Seen at the feedrs at Mirador de Quetzales

Scintillant Hummingbird Selasphorus scintilla – Seen at Rio Savegre Lodge

Volcano Hummingbird Selasphorus flammula – Seen daily in the highlands and cloud forests

Stripe-tailed Hummingbird Eupherusa eximia – Seen feeding up the road from Savegre Lodge

White-tailed Emerald Elvira chionura – Seen on our walk in La Amistad NP

Snowy-bellied Hummingbird Amazilia edward - We saw a total of five along the La Amistad National Park road

(H) Gartered Trogon *Trogon violaceus* – Heard on our morning walk in Carara National Park

Collared Trogon Trogon collaris - Both sexes on our walk around Savegre Lodge

Black-throated Trogon Trogon rufus – We had two individuals at Esquipulas/Rio Naranja on our drive up to Villa Lapas

Slaty-tailed Trogon *Trogon massena* – Seen on our final morning at Wilson Botanical Gardens

Resplendent Quetzal *Pharomachrus mocinno* – Great looks at a male & a female up the road from the Savgegre Lodge Turquoise-browed Motmot *Momotus superciliosa* – A pair were seen at the entrance to Casrara National Park

Lesson's Motmot Momotus mlessoni – Seen a number of times throughout the trip

Ringed Kingfisher Ceryle torquata – Best looks were of the individual hanging around El Oasis Café in Perez Zeledon

Belted Kingfisher Megaceryle alcyon - Only one seen was on the Rio Tarcoles

Amazon Kingfisher Chloroceryle amazona - Seen at the San Vito Airport ponds. Very confiding bird

```
Green Kingfisher Chloroceryle americana – Seen on the ponds near the San Vito Aiorport
American Pygmy Kingfisher Chlorocyrle aenea – Seen along the Rio Tarcoles
Rufous-tailed Jacamar Galbula ruficauda - Seen in Carara National Park on our final hike
Emerald Toucanet Aulacorhynchus prasinus – We saw two or three in the Rio Savegre Valley
Collared Aracari Pteroglossus torquatus - Seen at the Savegre Lodge area
Yellow-throated Toucan Ramphastos swainsonii – Pairs calling repeatedly in different parts of the cloud forest
Acorn Woodpecker Melanerpes formicivorus - An easy bird along the Rio Savegre Valley
Golden-napped Woodpecker Melanerpes chrysauchen – At the Wilson Botanical Gardens
Red-crowned Woodpecker Melanerpes rubricapillus – At various locations in the cloud forest
Golden-olive Woodpecker Colaptes rubiginosus – Seen early the first morning at Wilson Botanical Gardens
Hoffmann's Woodpecker Melanerpes hoffmannii - Common around the Hotel Bougainvillea
Yellow-bellied Sapsucker Sphyrapicus varius – Only one, and it was along the mixed flock trail at Mirador de Quetzales
Hairy Woodpecker Picoides villosus - One was seen in the forest around Mirador de Quetzales
Lineated Woodpecker Dryocopus lineatus - A nesting pair in La Amistad NP was a treat
(H) Pale-billed Woodpecker Campephilus guatamalensis - Only along the Rio Tarcoles
Pale-breasted Spinetail Synallaxis albescens – On our first morning walk at Wilson Botanical Garden
Ruddy Treerunner Margarornis rubiginosus - Seen in the forests around Mirador de Quetzales
Plain Xenops Xenops minutus – Seen on the grounds of Esquinas Rainforest Lodge
Streaked Xenops / rutilans - Again, seen in the forest around Mirador de Quetzales in a large mixed flock
Buff-fronted Foliage-gleaner Philydor rufum – Seen on our morning walk at Wilson Botanical Gardens
Lineated Foliage-gleaner Syndactyla subalaris - Seen in the large flock at Mirador de Quetzales
Spotted Barbtail Premnoplex brunnescens – Seen on our afternoon walk around Wilson Botanical Gardens
Ruddy Foliage-gleaner Clibanornis rubiginosus - Seen on our final morning walk at Wilson Botanical Garden
Wedge-billed Woodcreeper Glyphorynchus spirurus – Seen down towards the canopy tower at Wilson Botanical Garden
Northern Barred-Woodcreeper Dendrocolaptes sanctithomae – Seen on our first morning on the road out of Esquinas
Olivaceous Woodcreeper Sittasomus griseicapillus - Seen a few times at Wilson Botanical Garden
Ruddy Woodcreeeper Dendrocincia homochroa – Seen along the Rio Savegre Valley down towards the waterfalls
Northern Barred Woodcreeper Dendrocolaptes sanctithoeme - Seen on the entrance road to Esquinas Rainforest Lodge
Black-striped Woodcreeper Xiphorhynchus lachrymosus – Seen along the road into Esquinas
Cocoa Woodcreeper Xiphorhynchus susurrans – Foraging in oil palms outside of Esquinas Rainforest Lodge
Spotted Woodcreeper Xiphorhynchu serythropyquis – At the Wilson Botanical Gardens
Streak-headed Woodcreeper Lepidocolaptes souleyetii - At the Wilson Botanical Gardens down near the river
Spot-crowned Woodcreeper Lepidocolaptes affinis - In the forest around Mirador de Quetzales in a large mixed flock
Brown-billed Scythebill Campylorhamphus pusillus - Seen along the road into La Amistad National Park
Plain Antvireo Dysithamnus mentalis - Seen during one of our morning walks at Wilson Botanical Garden
Dusky Antbird Ceromacra tyrannina - Seen on the final hike of our trip at Carara National Park
Chestnut-backed Antbird Mymezia exsul – Seen on our last evening's walk at Esquinas
Bicolored Antbird Gymnopithys bicolor – Seen up close at Los Cutingoes
Black-faced Antthrush Formicarius analis – Seen on our final morning on the way to the canopy tower at Wilson
Silvery-throated Tapaculo Scytalopus argentifrons – In the forest around Mirador de Quetzales in a large mixed flock
Southern Beardless Tyranulet Camptostoma obsoletum – Seen on the grounds of Esquinas Rainforest Lodge
Yellow-bellied Elaenia Elaenia flavogaster – Seen in the grounds around Alexander Skutch's residence
Mountain Elaenia Elaenia frantzii - In the forest around Mirador de Quetzales in a large mixed flock
Torrent Tyrannulet Serpophaga cinerea – One seen attending it nest along the Rio Savegre
Olive-striped Flycatcher Mionectes olivaceus – On the road into Esquinas
Royal Flycatcher Onychorynchus coronatus – Seen on a small tributary to the Rio Naranjo
Paltry Tyrannulet Zimmerius vilissimus – Seen a few times on the trip, and yes, it is small and non-descript
Yellow-bellied Tyrannulet Ornithion semiflavum – Seen on our first morning walk at Wilson Botanical Gardens
Southern Beardless Tyrannulet Camptostoma obsoletum – Were missing this one but finally got looks on the Rio Naranja
Scale-crested Pygmy-Tyrant Myiornis atricapillus - Close looks at an individual along the river trail at Wilson
Common Tody-Flycatcher Todirostrum cinereum – Seen at the wastewater treatment plant in San Isidro de El General
Yellow-olive Flycatcher Tolmomyias sulphurescens – Seen at the Wilson Botanical Gardens
Sulphur-rumped Flycatcher Myiobius sulphureipygius - Seen on our late afternoon walk at Wilson Botanical Gardens
Tufted Flycatcher Mitrephanes phaeocercus – Seen a number of times, but the best look was along the Rio Savegre
Olive-sided Flycatcher Contopus cooperi – One seen flycatching from the top of a tree in La Amistad NP
Eastern Wood-Pewee Contopus virens - Seen and heard during our stay at Wilson Botanical Garden
Tropical Pewee Contopus cinereus – Two individuals were foraging down by the river in Wilson Botanical garden
```

```
Yellow-bellied Flycatcher Empidonax flaviventris – A pair were seen foraging along the Palmas Trail at Wilson
Least Flycatcher Empidonax minimus – An up close and personal look at Wilson Botanical Garden
Dark Pewee Contopus lugubris - Seen around the trout pond below the Savegre Lodge
Yellowish Flycatcher Empidonax flavescens – Certainly one the most common Empidonax flycatchers on the trip
Black-capped Flycatcher Empidonax atriceps – Seen down near the river at the Wilson Botanical gardens
Black Phoebe Sayornis nigricans – Seen at a few different locations along the Rio Savegre
(H) Bright-rumped Attila Attila spadiceus – Heard by all of us at Espquinas and seen by most
Dusky-capped Flycatcher Myarchus tuberculifer – Seen a number of different days
Panama Flycatcher Myarchus panamensis – Seen on our final morning at Carara National Park
Great-crested Flycatcher Myarchus crinitus – Only one individual seen along the Rio Naranja
Great Kiskadee Pitangus sulphuratus – A pretty common bird in most of Costa Rica with appropriate habitat
Boat-billed Flycatcher Megarynchus pitangua – Hotel Bougainvillea had a couple of pairs
Social Flycatcher Myiozetetes similis – Seen well at the San Isidro de General wastewater treatment plant
Rusty-margined Flycatcher Myiozetetes cayanensis – Seen by the San Vito Airport giving its distinctive call
Gray-capped Flycatcher Myiozetetes granadensis – Seen at our first stop on the Rio Cota
Piratic Flycatcher Legatus leucophaius – Seen at a number of locations throughout the trip
Tropical Kingbird Tyrannus melancholicus - Certainly the most widespread and most common flycatcher in Costa Rica
Fork-tailed Flycatcher Tyrannus savanna – Seen on the wires as we drove north along the coast to Villa Lapas
Rufous Piha Lipaugus unirufus – All of us heard this bird in Carara National Park but only a few got to see it
Cinnamon Becard Pachyramphus cinnamomeus – A single individual was seen above the feeding deck of Wilson
White-winged Becard Pachyramphus polychopterus - Two were seen along the Carara NP trail
Rose-throated Becard Pachyramphus aglaiae – Seen sporadically throughout the trip foraging in the canorpy
Barred Becard Pachyramphus versicolor - Both sexes were seen in the big mixed flock at Mirador de Quetzales
Masked Tityra Tityra semifasciata – A pair were seen foraging on our walk along the farm road of Esquinas
Orange-collared Manakin Manacus aurantiacus – Seen at Alexander Skutch's residence
Red-capped Manakin Pipra mentalis – Seen by just a few on our hike around Carara NP
Blue-crowned Manakin Lepidothrix coronata – Seen near the beginning of the La Amistad NP road
Mangrove Vireo Vireo pallens - Great looks in the masgroves along the Rio Tarcoles
Yellow-throated Vireo Vireo flavifrons - Seen at Skutch's residence in Los Cutinoges
Yellow-winged Vireo Vireo carmioli – Easily seen at Hotel Bougainvillea
Brown-capped Vireo Vireo leucophrys - Common in the lower Rio Savegre Valley
Philadelphia Vireo Vireo philadelphicus - Best looks were at the Hotel Bougainvillea
Red-eyed Vireo Vireo olivaceous - One was seen in the mixed flock at Mirador de Quetzales
Lesser Greenlet Hylophilus decurtatus - One was quite close on our hike in Carara National Park
Green Shrike-Vireo Vireolanius pulchellus - A good looking bird seen well at Wilson Botanical Gardens
Rufous-browed Peppershrike Cyclarhis gujansis – Only one was at the beginning of the hike in Carara NP
Brown Jay Cyanocorax morio – Seen on the grounds of Hotel Bougainvillea
Gray-breasted Martin Progne chalybea - Seen about every other day in small numbers
Mangrove Swallow Tachycineta albilinea - Definitely the common swallow on the Rio Tarcoles
Blue-and-white Swallow Pygochelidon cyanoleuca – The common swallow for the trip
No. Rough-winged Swallow Stelgidopteryx serripennis – Certainly the more common of the Rough-wingeds up north
Southern Rough-winged Swallow Stelgidopteryx ruficollis – Seen well at the San Isidro de General wastewater treatment
Cliff Swallow Petrochelidon pyrrhonota – A single individual foraging over the Rio Tarcoles
Barn Swallow Hirundo rustica - Only one seen was on our boat trip on the Rio Tarcoles
Rufous-breasted Wren Thryothorus rutilus - The more common of the wrens at Hotel Bougainvillea
Rufous-naped Wren Campylorrynchus rufinucha - Seen well up at Mirador de Quetzales
Riverside Wren Thryothorus semibadius – Seen in Carara National Park
Isthmusian Wren Thryothorus modestus – A pair were very confiding along the Rio Cato
House Wren Troglodytes aedon - Seend while singing at the San Isidro de General wastewater treatment plant
Timberline Wren Thryorchilus browni – Seen up on Cerro Buena Vista
Gray-breasted Wood-Wren Hericorhina leucophrys - Loud, vocal and common...
American Dipper Cinclus mexicanus – Seen at the Rio Savegre waterfalls
Tropical Gnatcatcher Polioptila plumbea – Seen in Carara NP and at a few other locations
Black-faced Solitaire Myadestes melanops – Seen and heard along the trail to the Rio Savegre waterfalls
(H) Orange-billed Nightingale-Thrush Catharus aurantiirostris – Heard singing in coffee plantation outside of La Amistad
Black-billed Nightingale-Thrush Catharus gracilirostris - Seen in the mixed flock at Mirador de Quetzales
Ruddy-capped Nightingale-Thrush Catharus frantzii - Seen at the Rio Savgre lodge forested area
```

Sooty Thrush Turdus nigrescens - Sporadically common along the Rio Savegre valley

Mountain Thrush *Turdus plebejus* – Less common than the Sooty Thrush

Clay-colored Thrush Turdus grayi - The national bird of Costa Rica, probably because it is found country-wide

White-throated Thrush *Turdus assimilis* – Seen down deep in the jungle at Wilson

Gray Catbird Dumetella carolinensis - Seen in the gardens of Hotel Bougainvillea

Tropical Mockingbird Mimus gilvus – Seen along the road to La Amistad

Black-and-Yellow Silky Flycatcher *Phainoptila melanoxantha* – Seen with the mixed flock at Mirador de Quetzales Long-tailed Silky-flycatcher *Ptilogonys caudatus* – Common and so very photogenic around the Rio Savegre Lodge

Louisiana Waterthrush *Parkesia* motocilla – Seen in the middle of our trip on three different days

Northern Waterthrush Parkesia noveboracensis – Seen very well along the Rio tarcoles

Tennessee Warbler Vermivora peregrine – Easily the most common warbler we encountered

Flame-throated Warbler Parula gutturalis – Seen well in the Rio Savgre Valley

American Redstart Setophaga ruticilla - An adult female and male were both seen at Savegre

Yellow Warbler *Dendroica petechial* – Not the least bit uncommon

Mangrove Warbler Setophaga petechia bryanti – A number were in the mangroves of the Rio Tarcoles

Chestnut-sided Warbler Dendroica pensylvanica – Not uncommon in most any habitat along the trip route

Black-and-White Warbler *Mniotilta varia* – Seen we were birding around the Rio Savegre Lodge

Prothonotary Warbler *Prothonotaria citrea* – We got to see three of these hot-headed warblers along the Rio Tarcoles

Golden-crowned Warbler Basileuterus culicivorus – Seen in jungle down towards the river in Wilson Botanical Gardens

Wilson's Warbler Wilsonia pusilla - Seen most every day in cloud forest habitat

Slate-throated Redstart Myioborus miniatus – Seen on the Rio Java trail at Wilson Botanical Gardens

Collared Redstart Myioborus torquatus - One of the more common warblers in cloud forest locales

Wrenthrush Zeledonia coronate - Seen up along the Cerro Buena Vista Road

Black-cheeked Warbler Basileuterus melanogenys - Seen in the mixed flock up at Mirador de Quetzales

Rufous-capped Warbler Basileutenus rufifrons - Seen along the riparian at Rio Savegre

Buff-rumped Warbler Basileuterus fulvicauda - Seen well at Esquinas Rainforest Lodge

Bananaquit Coereba flaveola – Sporadic, but seen at all of our lodging locations

Common Chlorospingus ophthalmicus - Not as common as the Sooty, but seen at almost every lodge

Sooty-capped Chlorospringus Chlorospingus pileatus - One or two were always showing up at banana feeders

Black-cheeked Ant-Tanager Habia atrimaxillaris - Seen at Esquinas Rainforst Lodge

Summer Tanager Pirangia rubra – Seen or heard every day along the Rio Savegre

Western Tanager Piranga Iudoviciana – Seen along the Las Palmas trail at Jardines de Wilson Botanica

Flame-colored Tanager *Piranga bidentata* – Common in the mid-elevations of the mountain ranges of our tour

Gray-headed Tanager Eucometis penicillate - Seen on about half the days of our trip

Cherrie's Tanager Ramphocelus costaricensis – One seen at the Miradior de Valle feeders

Blue-gray Tanager Thraupis episcopus – Seemed to be in most all of the habitats

Palm Tanager *Thraupis palmarum* – One of the very abundant tanagers on the trip

Silver-throated Tanager Tangara icterocephala - One of the more common tanagers in the highlands

Speckled Tanager *Tangara guttata* – What a great looking bird, and common

Bay-headed Tanager *Tangara gyrola* – Seen regularly in areas of cloud forest

Golden-hooded Tanager Tangara larvata – Not as common as the above two, but always a striking view

Spangle-cheeked Tanager *Tangara dowii* – Seen at Rio Savege Lodge feeding on berries

Green Honeycreeper Chlorophanes spiza – There always seemed to be at least one pair at a banana feeder

Red-legged Honeycreeper Cyanerpes cyaneus – Seen well at Wilson feeder after breakfast on our first morning

Peg-billed Finch Acanthidops bairdi – Seen well up on Cerro Buena Vista

Variable Seedeater Sporophila corvine – Seen at the San Vito Airport/runway

White-collared Seedeater Sporophila torqueola – The more common seedeater on the trip

Yellow-faced Grassquit Tiaris olivacea - Seen well at a number of locations, usually in roadside grasses

Wedge-tailed Grass Finch Emberizoides herbicola – Seen along the Rio Cota. Life bird for Max

Slaty Flowerpiercer *Diglossa plumbea* – Came into the Mirador de Qiuetzales hummingbird feeders

Yellow-thighed Finch *Pselliophorus tibialis* – Also a regular visitor to the Mirador de Quetzales feeders

Large-footed Finch *Pezopetes capitalis* – Seen feeding 15-feet below us at Miriam's Restaurant's feeders

Orange-billed Sparrow Arremon aurantiirostris – Seen late on our last afternoon at Wilson Botanical Gardens

Black-striped Sparrow *Arremonops conirostris* – Seen near the canopy tower on our final morning at Wilson

Rufous-collared Sparrow Zonotrichia capensis – Almost everywhere

Volcano Junco Junco vulcani - Seen up on Cerro Buena Vista road

Streaked Saltator Saltator striatipectus – One was seen feeding at the Mirador de Valle feeders Grayish Saltator Saltator coerulescens - Seen feeding on bananas behind the Hotel Bougainvillea Buff-throated Saltator Saltator maximus - Very good looks at the a pair at the Mirador de Valle feeders Black-thighed Grosbeak Pheucticus tibialis - Three or four were seen down towards the waterfalls on Rio Savegre Red-breasted Blackbird Sturnella militaris - Great looks in the farm fields outside Esquinas Rainforest Lodge Melodious Blackbird Dives dives - Seen and heard at the very back of the Hotel Bougainvillea grounds Great-tailed Grackle Quiscalus mexicanus – Everywhere, everywhere, everywhere, everywhere...
