

# Arizona Monsoon Madness | Species List

July 30 – August 6, 2022 | with Naturalist Journeys

With guides Robert Gallardo and Bryan Calk and 10 participants: Ruth, Chuck, Katy, Mike, Amy, Harold, Lenore, Babs, Victor, and Ann

Compiled by: Bryan Calk

(HO)= Distinctive enough to be counted as heard only

(I)=introduced

<https://ebird.org/tripreport/78100>

Summary:

A spectacular week of birding Arizona's iconic Sky Islands was made better with great company. Some excellent bird sightings included Montezuma Quail, Elegant Trogons foraging, Red-faced Warbler, Painted Redstarts, Varied Buntings, and Five-striped Sparrow. Our afternoons and evenings were spent with great food and conversation, often accompanied by an impressive monsoon display.

## BIRDS (147 species recorded):

### DUCKS, GEESE AND SWANS: Anatidae

**Black-bellied Whistling-Duck** *Dendrocygna autumnalis*— Small numbers at the Tubac Golf Resort during dinner and at the Amado Water Treatment Ponds (WTP)

**Cinnamon Teal** *Spatula cyanoptera*— One at Patagonia Lake State Park

**Mexican Duck** *Anas diazi*— A few at Twin Lakes Golf Course in Willcox and at the Amado WTP

**Ruddy Duck** *Oxyura jamaicensis*— One pair at Twin Lakes Golf Course in Willcox and at the Amado WTP

### NEW WORLD QUAIL: Odontophoridae

**Scaled Quail** *Callipepla squamata*— A large family group at Twin Lakes Golf Course in Willcox and a couple at Cave Creek Ranch (CCR)

**Gambel's Quail** *Callipepla gambelii*— Many seen throughout the week, but most common at CCR

**Montezuma Quail** *Cyrtonyx montezumae*— A pair were in the road as we left the George Walker House and Robert tracked the male down in the grass for close viewing

### PARTRIDGES, PHEASANTS, AND ALLIES: Phasianidae

**Wild Turkey** *Meleagris gallopavo*— Santa Rita Lodge in Madera Canyon

#### **PIGEONS AND DOVES: Columbidae**

**Rock Pigeon** *Columba livia* (I)— Seen as we drove through Willcox, Tucson, Sierra Vista, etc.

**Band-tailed Pigeon** *Patagioenas fasciata*— Seen well at the top of the Chiricahua Mountains at Barfoot Park and Rustler

**Eurasian Collared-Dove** *Streptopelia decaocto* (I)— Most common at Casa de San Pedro but at a few other locations as well

**Inca Dove** *Columbina inca*— Most easily seen at Patagonia Lake SP but also at CCR and at the Paton Center for Hummingbirds in Patagonia

**Common Ground Dove** *Columbina passerina*— One at Patagonia Lake SP and one at Box Canyon, both seen briefly

**White-winged Dove** *Zenaida asiatica*— One of the most common birds seen throughout the tour

**Mourning Dove** *Zenaida macroura*— Seen regularly in small numbers throughout the tour

#### **CUCKOOS AND ALLIES: Cuculidae**

**Greater Roadrunner** *Geococcyx californianus*— One at Patagonia Lake SP and one at Montosa Canyon

**Yellow-billed Cuckoo** *Coccyzus americanus*— One at Patagonia Lake SP along the birding trail

#### **NIGHTJARS: Caprimulgidae**

**Lesser Nighthawk** *Chordeiles acutipennis*— One that flew over as we were eating dinner and never circled back for a better view

#### **SWIFTS: Apodidae**

**White-throated Swift** *Aeronautes saxatalis*— A few seen briefly in flight in the Chiricahua Mountains

#### **HUMMINGBIRDS: Trochilidae**

**Rivoli's Hummingbird** *Eugenes fulgens*— At several feeding stations during the trip

**Blue-throated Mountain-gem** *Lampornis clemenciae*— Most seen at CCR and a couple at the Southwest Research Station

**Lucifer Hummingbird** *Calothorax lucifer*— Two at Ash Canyon Bird Sanctuary coming to feeders

**Black-chinned Hummingbird** *Archilochus alexandri*— Frequently seen in low numbers throughout the tour, mostly at feeders

**Anna's Hummingbird** *Calypte anna*— Most abundant and easily seen at Ash Canyon feeders, but elsewhere in the Huachucas and at Paton's

**Broad-tailed Hummingbird** *Selasphorus platycercus*— One perched at Pinery Canyon and a couple at the feeders at Miller Canyon (Beatty's)

**Rufous Hummingbird** *Selasphorus rufus*— Singles at a few feeding stations – female-types

**Broad-billed Hummingbird** *Cyananthus latirostris*— The most abundant hummingbird of the trip – one seen nest-building at the Patagonia Lake SP birding trail

**Violet-crowned Hummingbird** *Amazilia violiceps*— One at Miller feeders and one along the trail, and a few at the Paton's Center feeders

**White-eared Hummingbird** *Hylocharis leucotis*— One at the George Walker House and one at Miller Canyon feeders

**Berylline Hummingbird** *Saucerottia beryllina*— One at the Southwest Research Station coming to the feeder, agave bloom, and foraging for insects, and possibly collecting spider web for a nest

#### **RAILS, COOTS AND ALLIES: Rallidae**

**American Coot** *Fulica americana*— A few in Willcox at the golf course, and some at Patagonia Lake SP

#### **STILTS AND AVOCETS: Recurvirostridae**

**Black-necked Stilt** *Himantopus mexicanus*— Three at the Willcox golf course pond

**American Avocet** *Recurvirostra americana*— Over a dozen at the Willcox golf course pond

#### **PLOVERS AND LAPWINGS: Charadriidae**

**Killdeer** *Charadrius vociferus*— One at the Willcox golf course pond

#### **HERONS AND EGRETS: Ardeidae**

**Great Blue Heron** *Ardea herodias*— One at Willcox and one at Patagonia Lake SP

**Green Heron** *Butorides virescens*— One at Patagonia Lake SP

**Black-crowned Night-Heron** *Nycticorax nycticorax*— Several roosting around the golf course pond at Willcox

#### **NEW WORLD VULTURES: Cathartidae**

**Black Vulture** *Coragyps atratus*— Two soaring over Patagonia

**Turkey Vulture** *Cathartes aura*— Seen every day of the tour

#### **HAWKS, KITES, AND EAGLES: Accipitridae**

**Mississippi Kite** *Ictinia mississippiensis*— Two in Patagonia soaring over the center of town

**Cooper's Hawk** *Accipiter cooperii*— One at Carr Canyon

**Harris's Hawk** *Parabuteo unicinctus*— Stumbled upon a pair of these in San Simon just after getting gas on day one

**Gray Hawk** *Buteo plagiatus*— One pair at Casa de San Pedro, and several around the Patagonia general area

**Swainson's Hawk** *Buteo swainsoni*— Best observed at Casa de San Pedro where they were hunting the field and perching in the large cottonwood tree

**Zone-tailed Hawk** *Buteo albonotatus*— A pair flying over Madera Canyon as we were staking out the trogons

**Red-tailed Hawk** *Buteo jamaicensis*— A couple around Barfoot Park were the best seen, but a few at other locations as well

#### **OWLS: Strigidae**

**Whiskered Screech-Owl** *Megascops trichopsis*— Two duetting at John Hands Campground in Cave Creek Canyon

**Great Horned Owl** *Bubo virginianus*— One at Casa de San Pedro

**TROGONS: Trogonidae**

**Elegant Trogon** *Trogon elegans*— Three foraging in the sycamore-oak lined Madera Canyon

**WOODPECKERS: Picidae**

**Acorn Woodpecker** *Melanerpes formicivorus*— Seen almost every day of the tour, except at the lowest elevations

**Gila Woodpecker** *Melanerpes uropygialis*— Seen for most of the tour once we got to low enough areas

**Ladder-backed Woodpecker** *Dryobates scalaris*— First seen at Cathedral Rock Rd. in Portal, but encountered several other areas, mostly around Casa de San Pedro and Patagonia

**Hairy Woodpecker** *Dryobates villosus*— one at the Southwest Research Station, a few at Barfoot Park

**Arizona Woodpecker** *Dryobates arizonae*— Most easily seen by all at Santa Rita Lodge feeders, but also at CCR

**Northern Flicker** *Colaptes auratus*— Mostly heard during the week, but several seen at Barfoot Park

**FALCONS AND CARACARAS: Falconidae**

**American Kestrel** *Falco sparverius*— A couple seen while driving, one at Casa de San Pedro

**Peregrine Falcon** *Falco peregrinus*— Two at South Fork of Cave Creek Canyon

**TITYRAS AND BECARDS: Tityridae**

**Rose-throated Becard** *Pachyramphus aglaiae*— One female type at the Patagonia Roadside Rest Area

**TYRANT FLYCATCHERS: Tyrannidae**

**Northern Beardless-Tyrannulet** *Camptostoma imberbe*— Two at Montosa Canyon

**Greater Pewee** *Contopus pertinax*— Two at Barfoot Park, one at Carr Canyon heard

**Western Wood-Pewee** *Contopus sordidulus*— Seen in small numbers at many of the stops during the tour

**Cordilleran Flycatcher** *Empidonax occidentalis*— One at South Fork of Cave Creek and a couple at Rustler Park

**Buff-breasted Flycatcher** *Empidonax fulvifrons*— Two at Carr Canyon in the Huachucas

**Black Phoebe** *Sayornis nigricans*— At Casa de San Pedro along the river

**Say's Phoebe** *Sayornis saya*— One at Willcox and one at Amado WTP

**Vermilion Flycatcher** *Pyrocephalus rubinus*— Seen regularly around Casa de San Pedro and a few along the birding trail at Patagonia Lake SP

**Dusky-capped Flycatcher** *Myiarchus tuberculifer*— Two up the trail at Miller Canyon

**Brown-crested Flycatcher** *Myiarchus tyrannulus*— Singles mostly around Cave Creek Canyon and a couple at Casa de San Pedro and the Paton Center

**Sulphur-bellied Flycatcher** *Myiodynastes luteiventris*— Best seen at South Fork of Cave Creek Canyon and Miller Canyon, a couple also at Madera Canyon

**Tropical Kingbird** *Tyrannus melancholicus*— Calling and foraging around the Tubac Golf Course during dinner

**Cassin's Kingbird** *Tyrannus vociferans*— A few around CCR and Casa de San Pedro, singles here and there elsewhere as well

**Western Kingbird** *Tyrannus verticalis*— Many at Willcox and a few along the road up to Portal from the grasslands

#### **VIREOS: Vireonidae**

**Bell's Vireo** *Vireo bellii*— Mostly heard, but a few seen with the best viewing opportunities had at Patagonia Lake SP and Montosa Canyon

**Hutton's Vireo** *Vireo huttoni*— One at Carr Canyon, a couple up Miller Canyon, and one calling at Madera

**Plumbeous Vireo** *Vireo plumbeus*— Mostly at the highest elevation spots like Barfoot, Pinery Canyon, Carr, etc.

**Warbling Vireo** *Vireo gilvus*— One at Carr Canyon and one at Montosa – both seen briefly

#### **SHRIKES: Laniidae**

**Loggerhead Shrike** *Lanius ludovicianus*— One giving good scope views at Casa de San Pedro and one at Montosa Canyon along the drive

#### **CROWS AND JAYS: Corvidae**

**Steller's Jay** *Cyanocitta stelleri*— Several at Barfoot Park at the top of the Chiricahuas

**Woodhouse's Scrub-Jay** *Aphelocoma woodhouseii*— One at CCR and a few at Carr Canyon

**Mexican Jay** *Aphelocoma wollweberi*— Many seen throughout the week, often in groups of 3-7 birds

**Chihuahuan Raven** *Corvus cryptoleucus*— Seen along the drive in the Willcox area and at the golf course ponds

**Common Raven** *Corvus corax*— Mostly at the higher elevations, but a few around Paton's Center and Box Canyon

#### **TITS AND CHICKADEES: Paridae**

**Mexican Chickadee** *Poecile sclateri*— Good numbers in the Barfoot and Rustler Park area

**Bridled Titmouse** *Baeolophus wollweberi*— Seen along the trail at many locations – first at South Fork of Cave Creek Canyon, also at Miller, Carr, Madera, etc.

#### **PENDULINE TITS: Remizidae**

**Verdin** *Auriparus flaviceps*— A couple at the birding trail of Patagonia Lake SP

#### **SWALLOWS AND MARTINS: Hirundinidae**

**Northern Rough-winged Swallow** *Stelgidopteryx serripennis*— A couple at Willcox golf course ponds

**Violet-green Swallow** *Tachycineta thalassina*— A small handful at Rustler Park

**Barn Swallow** *Hirundo rustica*— Good numbers flying around the ponds at Willcox and smaller numbers around Patagonia

**Cliff Swallow** *Petrochelidon pyrrhonota*— Groups at Willcox and Casa de San Pedro

### **BUSHTITS: Aegithalidae**

**Bushtit** *Psaltirparus minimus*— Flocks at the Southwest Research Station and Carr Canyon

### **NUTHATCHES: Sittidae**

**Red-breasted Nuthatch** *Sitta canadensis*— One in the flock with Mexican Chickadees between Rustler and Barfoot

**White-breasted Nuthatch** *Sitta carolinensis*— Many seen throughout the week, often at feeding stations

**Pygmy Nuthatch** *Sitta pygmaea*— A good sized flock in the Barfoot Park area and a couple at Carr Canyon

### **CREEPERS: Certhiidae**

**Brown Creeper** *Certhia americana*— Seen and heard at the mid-high elevations such as South Fork of Cave Creek Canyon, Miller Canyon, Madera, etc.

### **GNATCATCHERS: Polioptilidae**

**Blue-gray Gnatcatcher** *Polioptila caerulea*— In the Barfoot Park area at the high elevations of the Chiricahua Mountains

### **WRENS: Troglodytidae**

**Rock Wren** *Salpinctes obsoletus*— One at Box and one at Montosa Canyons

**Canyon Wren** *Catherpes mexicanus*— Singles heard and briefly seen at a few locations, but most prolonged views at the Patagonia Roadside Rest Area

**House Wren** *Troglodytes aedon*— One at Barfoot Park

**Bewick's Wren** *Thryomanes bewickii*— One at CCR but mostly seen and heard in the Huachuca Mountains at several hotspots

**Cactus Wren** *Campylorhynchus brunneicapillus*— One at Willcox golf course, several at CCR, and a couple at Box Canyon

### **STARLINGS AND MYNAS: Sturnidae**

**European Starling** *Sturnus vulgaris* (I)— Most seen while driving through urban areas of Tucson and Sierra Vista

### **MOCKINGBIRDS AND THRASHERS: Mimidae**

**Curve-billed Thrasher** *Toxostoma curvirostre*— First seen at Willcox golf course, but also at Casa de San Pedro and other locations

**Crissal Thrasher** *Toxostoma crissale*— One briefly seen and heard up the cliff at Montosa Canyon

**Northern Mockingbird** *Mimus polyglottos*— Two at Willcox golf course pond area and a couple while driving

### **THRUSHES: Turdidae**

**Western Bluebird** *Sialia mexicana*— A few stunningly beautiful individuals at Carr Canyon

**Hermit Thrush** *Catharus guttatus*— Heard and briefly seen at Pinery and Carr Canyons

**American Robin** *Turdus migratorius*— Most seen in the Chiricahua Mountains, especially Barfoot and South Fork, but also at Carr Canyon in the Huachucas

**SILKY-FLYCATCHERS: Ptilonotidae**

**Phainopepla** *Phainopepla nitens*— Best seen at Patagonia Lake SP birding trail area, but small numbers seen elsewhere throughout the tour

**OLIVE WARBLER: Peucedramidae**

**Olive Warbler** *Peucedramus taeniatus*— Two at Barfoot Park were only moderately cooperative for views

**OLD WORLD SPARROWS: Passeridae**

**House Sparrow** *Passer domesticus* (I)— Most abundant at Casa de San Pedro

**FINCHES: Fringillidae**

**House Finch** *Haemorhous mexicanus*— Common around feeders throughout the week

**Lesser Goldfinch** *Spinus psaltria*— Common around feeders throughout the week

**NEW WORLD SPARROWS: Passerellidae**

**Rufous-winged Sparrow** *Peucaea carpalis*— One singing on the way out of Montosa Canyon

**Botteri's Sparrow** *Peucaea botterii*— One cooperative bird on the way into Madera Canyon

**Cassin's Sparrow** *Peucaea cassinii*— Skylarking birds singing in the grasslands just below Portal on day one

**Five-striped Sparrow** *Amphispizopsis quinquestriata*— One cooperative bird in Box Canyon

**Black-throated Sparrow** *Amphispiza bilineata*— A couple in the same area as the Cassin's Sparrow and a few more in Montosa Canyon

**Lark Sparrow** *Chondestes grammacus*— One at the Paton Center in Patagonia

**Yellow-eyed Junco** *Junco phaeonotus*— Several in the Barfoot Park area and a few at Carr Canyon

**Song Sparrow** *Melospiza melodia*— Good numbers at the low elevation riparian areas around Casa de San Pedro and Patagonia

**Canyon Towhee** *Melospiza fusca*— Singles at CCR, Ash Canyon, and Montosa Canyon

**Abert's Towhee** *Melospiza aberti*— Good numbers at Patagonia Lake SP birding trail and a few at Casa de San Pedro

**Rufous-crowned Sparrow** *Aimophila ruficeps*— Two up the cliff at Montosa Canyon

**Spotted Towhee** *Pipilo maculatus*— Most frequently heard, occasionally seen. Mid-high elevations in the Huachuca and Chiricahua Mountains

**YELLOW-BREASTED CHAT: Icteriidae**

**Yellow-breasted Chat** *Icteria virens*— Easily heard and occasionally seen along the San Pedro River and the Patagonia area

**NEW WORLD BLACKBIRDS: Icteridae**

**Chihuahuan Meadowlark** *Sturnella lilianae*— Was split into its own species (previously a subspecies of Eastern) just over a week after the conclusion of our tour! Two at Willcox golf course ponds and one in the grasslands below Portal with the Cassin's Sparrows

**Hooded Oriole** *Icterus cucullatus*— A pair was hanging out at CCR and one at Montosa Canyon

**Scott's Oriole** *Icterus parisorum*— One at the Santa Rita Lodge feeders in Madera Canyon

**Red-winged Blackbird** *Agelaius phoeniceus*— A small group at Willcox ponds

**Bronzed Cowbird** *Molothrus aeneus*— One came to the feeder area at the Paton Center for Hummingbirds

**Brown-headed Cowbird** *Molothrus ater*— Several at Casa de San Pedro and the Patagonia area

**Great-tailed Grackle** *Quiscalus mexicanus*— Lots at Patagonia Lake SP and others seen sporadically during the week

#### **NEW WORLD WARBLERS: Parulidae**

**Lucy's Warbler** *Leiothlypis luciae*— A couple at Patagonia Lake SP and the Paton Center

**Virginia's Warbler** *Leiothlypis virginiae*— One seen briefly at Carr Canyon

**Common Yellowthroat** *Geothlypis trichas*— Mostly heard, briefly seen. At Willcox golf course pond, Casa de San Pedro, and Patagonia Lake SP

**Yellow Warbler** *Setophaga petechia*— Most abundant at Casa de San Pedro and Patagonia

**Grace's Warbler** *Setophaga graciae*— Good views at both Barfoot Park and Carr Canyon

**Black-throated Gray Warbler** *Setophaga nigrescens*— A few at Carr Canyon and one at Miller

**Red-faced Warbler** *Cardellina rubrifrons*— One at Pinery Canyon

**Painted Redstart** *Myioborus pictus*— Best views at Miller Canyon but singles seen at other locations

#### **CARDINAL-GROSBEAKS: Cardinalidae**

**Hepatic Tanager** *Piranga flava*— First at South Fork, a couple in Carr Canyon gave great views thanks to a tip from a couple other birders

**Summer Tanager** *Piranga rubra*— Best views in Montosa Canyon but also at Casa de San Pedro and Patagonia Lake SP

**Western Tanager** *Piranga ludoviciana*— Generally uncooperative but seen briefly at CCR, Pinery Canyon, and Box Canyon

**Northern Cardinal** *Cardinalis cardinalis*— At many locations, often around feeders

**Black-headed Grosbeak** *Pheucticus melanocephalus*— At many locations, often around feeders

**Blue Grosbeak** *Passerina caerulea*— Coming to the feeders at Casa de San Pedro, also at Box Canyon, Amado WTP, and Montosa Canyon

**Lazuli Bunting** *Passerina amoena*— One at Paton Center, and a few at Amado WTP from a distance

**Varied Bunting** *Passerina versicolor*— One extraordinarily cooperative bird at Box Canyon, another at Montosa Canyon

#### **Mammals (11 species)**

**White-tailed Deer (Coue's)** *Odocoileus virginianus*— Seen every day of the tour, first at the Cave Creek Ranch (CCR) feeder area

**Collared Peccary** *Pecari tajacu*— A couple groups seen at CCR  
**Striped Skunk** *Mephitis mephitis* – At the CCR feeder areas after sunset  
**Desert Cottontail** *Sylvilagus audubonii*— Seen every day of the tour, often along a trail or at the edge of a bird feeding area  
**Black-tailed Jackrabbit** *Lepus californicus*— Seen on the roads into Portal and Madera Canyon  
**Cliff Chipmunk** *Tamias dorsalis*— Seen in South Fork of Cave Creek Canyon and at the Barfoot Park area  
**Rock Squirrel** *Otospermophilus variegatus*—Present in many areas during the tour, such as CCR and Ash Canyon  
**Arizona Gray Squirrel** *Sciurus arizonensis*— Seen in the Patagonia area most easily  
**Mexican (Apache, Chiricahua) Fox Squirrel** *Sciurus nayaritensis*— Seen in the Chiricahua Mountains only  
**Gray Fox** *Urocyon cinereoargenteus*— Seen in the road at night on our owling adventure in Cave Creek Canyon  
**Pocket Gopher sp.** *Thomomys sp.*— Seen darting around the trail edges at Casa de San Pedro and Madera Canyon

#### Reptiles (5 species)

**Yarrow's Spiny Lizard** *Sceloporus jarrovi*— At Carr Canyon  
**Clark's Spiny Lizard** *Sceloporus clarkii*— At Ash Canyon  
**Ornate Box Turtle** *Terrapene ornata*— Seen on the road into Portal and around Casa de San Pedro along the road and one in the trail  
**Spadefoot Toad** *Scaphiopus sp.* – Seen after the rains at Casa de San Pedro  
**Sonoran Desert Toad** *Incilius alvarius* – One on the sidewalk as we were leaving dinner on day 6, many more hopping in the wet road the same night

#### Butterflies (30 species)

Papilionidae:

**Pipevine Swallowtail** (*Battus philenor*)-Seen throughout the trip at various locales. Many at the Casa de San Pedro hotel.  
**Two-tailed Tiger Swallowtail** (*Pterourus multicaudata*)-Many seen at Cave Creek Canyon.  
**Western Giant Swallowtail** (*Heracles rumiko*)-Small numbers seen in low-lying areas during both trips.

Pieridae:

**Mexican Yellow** (*Eurema mexicana*)-One observed at Miller Canyon  
**Tailed Orange** (*Pyrisitia proterpia*)-One observed in Patagonia Lake State Park  
**Orange Sulphur** (*Colias eurytheme*)-Observed in large numbers in low-lying areas and lower numbers in mountainous areas  
**Dainty Sulphur** (*Nathalis iole*)-One observed in Miller Canyon  
**Southern Dogface** (*Zerene cesonia*)-Many observed in South Fork Canyon  
**Checkered White** (*Pontia protodice*)-One observed in the Ash Canyon gardens

Nymphalidae:

**Arizona Sister** (*Adelpha eulalia*)-Many observed at most mountain locations.

**Red Satyr** (*Megisto rubricata*)-A few observed. One at Miller Canyon.

**Red-spotted Purple** (*Limenitis arthemis*)-Observed at most wooded lowland locations.

**Mylitta Crescent** (*Phyciodes mylitta*)-Small numbers seen around Rustler

**Pearl Crescent** (*Phyciodes tharos*)-One seen at Patagonia Lake State Park

**Elada Checkerspot** (*Texola elada*)-Many seen in Patagonia Lake State Park

**Queen** (*Danaus gilippus*)-Seen in the gardens at Casa San Pedro.

Riodinidae:

**Palmer's Metalmark** (*Apodemia palmeri*)-Several seen on a flowering shrub at Patagonia Lake State Park.

**Fatal Metalmark** (*Calephelis nemesis*)-One seen at Patagonia Lake State Park

Lycaenidae:

**Southwestern Azure** (*Celastrina echo*)-Frequently observed at most mountainous locations.

**Gray Hairstreak** (*Strymon melinus*)-One observed at Patagonia Lake State Park

Hesperiidae:

**Russet Skipperling** (*Piruna pirus*)-One photographed at Rustler Park

**Four-spotted Skipperling** (*Piruna polingii*)-One photographed at Rustler Park

**Dull Firetip** (*Apyrrothrix araxes*)-Seen at the Southwest Research Station feeding on milkweed.

Sometimes observed feeding on blooming agaves at Miller Canyon.

**Moon-marked Skipper** (*Atrytonopsis lunus*)-One observed at Cave Creek Ranch

**Toltec Roadside-Skipper** (*Amblyscirtes tolteca*)-One observed at Ash Canyon feeding on Lantana

**Orange-headed Roadside-Skipper** (*Amblyscirtes fimbriata*)-One observed along South Fork Canyon as it fed on a flowering leguminous shrub

**Northern Cloudywing** (*Cecropterus pylades*)-Several seen feeding on milkweed at the Southwest Research Station

**Desert Cloudywing** (*Cecropterus casica*)-One seen at George Walker House

**Common Sootywing** (*Pholisora catullus*)-One seen at the Amado treatment ponds

**Golden-banded Skipper** (*Telegonus cellus*)-Numerous seen in South Fork Canyon
